AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Original) A lavatory bowl rim-block comprising:
  - a) at least about one container holding a liquid, perfume-containing composition;
  - b) a dispensing means for dispensing said composition from under the rim of a lavatory bowl into the flush water of said lavatory bowl; and
  - c) a fragrance delivery component;

wherein said fragrance delivery component does not dispense a fragrance using said dispensing means and delivers said fragrance into the ambiance over a prolonged period of time.

2. (Currently amended) A lavatory bowl rim-block according to claim 1, wherein said lavatory bowl rim-block additionally comprises an attachment means, preferably wherein said dispensing means comprises the attachment means and a supporting structure.
3. (Currently amended) A lavatory bowl rim-block according to claim 2, wherein said attachment means attaches said lavatory bowl rim-block to the rim of a lavatory bowl or suspends said lavatory bowl rim-block from said rim, ~~preferably wherein~~ said attachment means is a hook to suspend said lavatory bowl rim-block from the rim of a lavatory bowl.
4. (Original) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is selected from the group consisting of : fragranced gels; fragranced plastics; a wick delivery system comprising fragrance-containing liquid;

permeable film delivery systems combined with a fragranced gel or fragranced liquid;  
and battery powered / electrical fragrance release systems; and combinations thereof.

5. (Currently amended) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is a fragranced gel, ~~preferably a perfumed gel~~.
6. (Original) A lavatory bowl rim-block according to claim 5, wherein said fragranced gel is present in a recess on the outside portion of the lavatory bowl rim-block herein.
7. (Original) A lavatory bowl rim-block according to claim 5, wherein said fragranced gel is placed in a recess on the outward-facing section of said container.
8. (Original) A lavatory bowl rim-block according to claim 5, wherein said fragranced gel is placed in a recess on the rim-facing section of said container.
9. (Original) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is a fragranced plastic based on a plastic material selected from the group consisting of : polyethylene terephthalate (PET); polyethylene (PE); polypropylene (PP); polyvinyl chloride (PVC); high impact polystyrene (HIPS); and polystyrene (PS) and mixtures thereof.
10. (Original) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is a permeable film delivery system combined with a fragranced gel or fragrance-containing liquid medium.
11. (Original) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is a wick delivery system comprising a fragrance-containing liquid composition.
12. (Original) A lavatory bowl rim-block according to claim 1, wherein said fragrance delivery component is a battery powered / electrical fragrance release system.
13. (Original) A lavatory bowl rim-block according to claim 1, wherein said perfume present in said liquid, perfume-containing composition is selected from the group
